

## WHITEHEAD DISCUSSES ISSUES OF THE CAMPAIGN

Rock County Senator and Republican Candidate for Governor, Will Write a Series of Letters Explaining His Position with Public Affairs.

### FIRST IS ON PRIMARY ELECTION BILL

It Was Laid Before the Legislature with a Demand That There Be No Change Made in Its Provisions-- Accept Challenge of Adams.

When, in response to the call made upon him by Wisconsin republicans, State Senator John M. Whitehead announced his candidacy for the Republican nomination for governor, says the Milwaukee Sentinel, he stated in the letter making that announcement that he would discuss later the issues involved in the campaign. It is in compliance with that pledge that Senator Whitehead is now engaged in writing a series of letters, the first of which is printed below. The other letters of the series will follow from time to time as they are completed.

**Beginning of Primary Bill**  
In his opening letter Senator Whitehead deals with the history of the introduction in the legislature of the Stevens Primary election bill; of the interest felt by the legislators and others during the days when they were waiting to have the subject brought before them in concrete form; and of the assertions made in favor of the primary election principle by the friends of the measure. Continuing, he refers to the address delivered before the joint committee of the two houses on privileges and elections by H. C. Adams, the state dairy and food commissioner, and points to the fact that Mr. Adams, although he was not a member of the legislature, took it upon himself to ask that the bill be enacted into law without material change.

He concludes with a plain statement of the circumstances surrounding Mr. Adams' challenge to those who felt called upon to take exception to the bill as drawn to "come out into the open" and fight it squarely, which challenge was accepted.

**Will Have Historic Value**  
In the letter here printed Senator Whitehead barely opens the discussion. That he will do it justice before leaving is for other questions at issue is assured by his manner of writing what may be called his introductory chapter. Coming as they do from a man who was an active participant in the controversy, always present during the entire session, and one, too, who was in a position to know the inside history of the bill from the day it appeared ready printed on the desks of the members of both houses, this series of letters will have a historic value that no one should, or well can, ignore.

The second letter of the series will be printed in The Sentinel on Saturday morning and the third will appear on Monday, May 5.

**Mr. Whitehead's First Letter**  
The Senator's first letter is as follows:  
"To the Editor of The Sentinel:  
"I again ask the favor of some space in your columns, that I may fulfill a promise made to Wisconsin Republicans in my letter of Feb. 24, 1902, which you kindly published for me, to discuss some of the questions pertaining to my gubernatorial candidacy."

"A controversy arose in the last legislature over a bill known as the 'Stevens Bill, No. 98-A.' It passed next to the substitute for 98-A. Introduced in the assembly, and then the 'Hagemeister Bill,' the substitute for No. 73-S, introduced in the senate. This issue appears not to have been settled in the legislature. It is now before the people. They are calling for the facts, and, as far as the facts are within my knowledge, I shall bring them to light."

**Claims Made For Stevens Bill**  
"There was much talk in and about the legislature at the time the bill was under consideration in regard to the 'evils of the caucus and convention system,' the 'scheming, trickery, fraud and corruption' of the system, and the 'fatal and organic' effects of the system. It was often asserted that in other states success had attended legislation, such as the Stevens bill; that the bill was no longer to be regarded as within the stage of experiment; that the people of Wisconsin had sounded the 'death-knell' of the old system; that the rights taken away from them should be restored to the people, and that a 'clear and explicit demand' had been made at the polls by the voters at the last election; that the legislature should accord to the people in full measure the 'sovereign power of the ballot.' I might cite many other expressions like the above, but these sufficiently illustrate the basis of the arguments often used in favor of the bill. Such phrases did not then, nor will they now, settle the case. The judgment of the people upon this bill will not be determined by catch phrases or platitudes. I prefer to confine myself to plain speech and to a succinct statement of facts. The people will examine the facts for themselves. They will pass upon all the questions raised and decide upon their merits."

"At the last state Republican convention the platform contained the following declaration:  
"The great reformation effected in our general elections through the Australian ballot inspires us with confidence to apply the same method in making nominations, so that every voter may exercise his sovereign right of choice by direct vote without intervention or interference of any political agency. We therefore demand that caucuses and conventions for the nomination of candidates for office be abolished by legislative enactment, and that all candidates for state, legislative, congressional and county officers be nominated at a primary election upon the same day by direct vote under the Australian ballot."

"The propositions contained in this convention utterance, specifically stated, are as follows:  
"1. The Australian ballot has effected a general reform in our general elections.  
"2. The same method should be applied in making nominations.  
"3. The voter should exercise his sovereign right of choice in making nominations by direct vote.  
"4. No political agency should intervene or interfere.  
"5. Caucuses and conventions should be abolished by law.  
"6. All candidates for state, legislative, congressional and county officers are to be nominated at a primary election upon the same day by direct vote under the Australian ballot."

**Primary Law Favored**  
"The legislature convened Jan. 9, 1901. In the senate thirty-one out of thirty-three, and in the assembly eighty-one out of 100 members were republicans. The party pledge was in the mind and kept constantly before the eyes of each republican member. The casual conversation of members, when they first met at the capitol, turned almost inevitably to the subject of a primary election law. After a few days, one asked of another: 'Who is to prepare the bill, and what are to be its provisions?' After many days of waiting the general inquiry was when is the bill to make its appearance?"

"The whole matter became an ever deepening mystery, but finally our patience was rewarded, for on Monday evening, Jan. 29, 1901, the cloud lifted. The bill, all printed, ready for our files, was laid upon our desks. Then, for the first time, we all knew what sort of a remedy was proposed for our much-talked-of political ills. The committees on privileges and elections of both houses immediately arranged for joint hearings upon the bill to begin the following week. All other legislative business was treated as of secondary importance. A state official came before the committee and opened the debate in favor of the bill with a brilliant and effective presentation of it in every light in which it might be made to appear necessary, wise and patriotic. He was most skillful and persuasive, and his task was more than that of a phrasemaker. It was to show the hand and purpose that were ready to guide the legislature."

**Demand in Its Existing Form**  
"He ventured farther and farther in his claims and demands until he reached a point where he dared assert:  
"I believe that this bill is properly drawn in all its details. It is not cumbersome, as has been claimed. The substantial repeal of existing laws and the substitution thereof of a complete system of laws, providing for all of the details necessitated by primary elections, cannot be embraced within a few sections of the statutes. Even the friends of the measure who have not studied carefully studied it very generally, in private conversation and through the press, stated that the law might be defective in some particulars. But it is observable that these particulars have seldom been pointed out. Naturally the public has been inclined to think that a law as important as this, embracing thirty-nine sections, would contain some grave defects. If such defects exist I have not been able to find them."  
"We ask that the Stevens bill be passed substantially in its present form."

"According to this advocate and leader, who is not a member of either house, the legislature without being consulted as to what the bill should be, without knowing what it was to contain before it was printed and laid before them and yet being in the dark even to its authorship, was expected forthwith to enact the bill into a law. Mark the words of the distinguished orator, 'We ask that' Continued On Page 2.

## TROLLEY RUNS INTO A PASSENGER TRAIN

Seven Passengers Are Seriously Hurt in a Crossing Accident at Milwaukee.

Due to Carelessness.  
Milwaukee, Wis., May 2.—An electric car carrying twelve passengers crashed into a moving locomotive at Clinton and Oregon streets and was demolished. The passengers were terribly frightened and seven of them injured. Those who were hurt are: Frank Berg, Corn Cox, Elizabeth Dempsey, Miss Delman, Hattie Ulrich, Fred Rosche, Gertrude Young.  
The south-bound Howell avenue car No. 265 was at the crossing of the St. Paul railroad. A passenger train went by, the gates were lifted, and the street car conductor signaled his car to go ahead. He did not see a freight engine pulling some passenger cars down to the depot. The crossing man did not see them either and the gates were raised. There was a terrible crash in an instant. The frightened passengers screamed with terror and escaped as best they could. The locomotive was knocked completely off the track.

## HARRIS WILL NOT BE A CANDIDATE

The Walworth County State Senator Has Decided Not To Enter for a Re-election.

Senator John H. Harris of Elkhorn yesterday announced the fact that he would not be a candidate for re-election to the state senate from the Twenty-third district, which consists of Walworth and Jefferson counties. Up to a few days ago it was generally understood that Senator Harris would be a candidate for re-election, and although he had made no specific announcement of that fact, it was generally understood in political circles that he would again be a candidate.

Yesterday the announcement was made at Elkhorn, authorized by himself, that under no circumstances would he be a candidate for re-election. "After fully canvassing the matter in all its aspects," said Mr. Harris, "I have concluded that my business affairs demand my undivided attention."  
"There is no question in reference to the sentiment in Walworth county. It is more stalwart republican today than it has ever been and it has never wavered in that respect. I know what the sentiment is out here, and from a stalwart republican standpoint, I couldn't be better."  
Senator Harris is one of the best known as well as one of the most popular men in legislative as well as state political circles. He served on the county board of Walworth county for many years, and was elected to the senate four years ago.

## GATHER AT HEALING SHRINE

Carey, Ohio, the Mecca of Many Pilgrims Seeking Health.

Upper Sandusky, O., May 2.—The village of Carey was crowded with pilgrims gathered to worship and find healing at the Church of Our Lady of Consolation.  
There are many sacred relics in the church. The most conspicuous among them is a piece of the true cross. The church also possesses a facsimile of the statue of the famous Holy Virgin at Luxemburg, noted for its healing powers. Hundreds of cures have been wrought in the church.  
Fifteen priests assisted in the ceremonies. Mass was celebrated every half hour from three altars.

## DAVE SULLIVAN WILL FIGHT

New York, May 2.—Dave Sullivan is ready to box Young Corbett at Denver on May 23 in a ten-round bout. Sullivan a few days ago called off the struggle, saying he intended to sail for England with Tom Sharkey.

## TO EAT ACCORDING TO YOUR PURSE; TURN FROM MEAT TO VEGETABLES

High Price of Beef Forces Working People to Seek Other Food Equally Nutritious and Cheaper-- Cereals Capable of Supplying Human Needs.

Chicago, May 2.—The present high prices of beef have caused thousands of working men and women who have been accustomed to eating it to turn about for foods which will furnish the same amount of nutrition and which will be better suited to the limitations of the purse. Many families have already turned to a strictly vegetable or cereal diet, and have found no difficulty in obtaining the proper amount of nourishment to supply them with energy for their daily labors.

Another phase of the situation is presented in the downtown department stores, where hundreds of women and girls are threatening to join the ranks of the vegetarians because the price of meat is beyond the reach of their purses. They even talk of organizing against the packers, so strong is the feeling that they are being imposed upon. They have been compelled to forego meat and have found it not such a hardship as was at first imagined.

Scientists say that from 3,000 to 3,500 calories, or heat units, are necessary to furnish the average laboring man with proper nourishment, and that from 2,500 to 2,800 calories

## PEASANTS RISE AGAINST RUSSIA

Movement is Spreading in Central and Southern Provinces.

## TROOPS IN MUTINY

One Whole Regiment Refuses to Act Against the Rebellious Workmen.

## RICH ESTATES SACKED

St. Petersburg, May 2.—The revolutionary movement in southern and central Russia is spreading, and the authorities are powerless to quell the disorders. The most significant feature is the manifest sympathy shown by a portion of the military.

The labor population of the whole district between Moscow and Vladimir is in revolt. Encounters between the troops and workmen have been numerous and many persons have been killed and wounded. A Uhlan regiment, commanded by Colonel Morosoff, refused to act against the workmen.

In the southern provinces the situation is worse and its gravity is apparent from the fact that Dragomiroff, Governor General of Kieff; Pocarell, vice director of the department of police, and other officials have joined Von Plehwe, the Minister of the Interior, at Kharkoff.

The noted chateau of Romone, owned by Duke Alexander of Oldenburg, has been burned by peasants, who practically ruined the estate. The duke is the father-in-law of the czar's sister Olga, who married his son, Duke Peter, last year.

The Voronej sugar refineries have especially suffered from the outbreak. It now develops that the agitators who are chiefly responsible for the spread of the revolutionary movement among the hungry peasants used a curious political canard to bring the former serfs and landowners into collision.

A rumor was industriously circulated that the czar had ordered the lands of the nobles to be divided among the emancipated serfs. The peasants thereupon formed committees, under the commune officials, which waited on the landowners and ordered them to vacate the land withheld from the peasants, chose the crown agents, and proceeded to distribute the land and movables, leaving the nobles from fifteen to twenty acres each. The proceedings, which were orderly, were conducted with the utmost gravity until the authorities interfered. Thereafter there was riot, arson, and devastation.

In military circles it is believed that the army maneuvers, which have been planned to take place in Orel and Koursk cannot occur, owing to the disturbed state of those governments.

## RAILROAD WRECK AT ROCKFORD

Fireman Jumped, Missed His Footing, and Is Killed by Coal Tender.

Rockford, Ill., May 2.—Fireman Edward Roark was killed and Engineer Peter Trotter seriously injured in a wreck in the East Rockford yards of the Chicago and Northwestern railway. They were members of a crew on an "extra" freight running at a high rate of speed to reach the West Rockford station. Four cars had been left standing on the main line and into these the freight crashed, derailing the engine and overturning several cars. Fireman Roark jumped, but slipped on the wet embankment and fell under the coal tender.

## TORNADO SWEEPS OVER BAYARD, IOWA

Two Milwaukee and St. Paul Elevators and a Number of Dwellings Are Destroyed.

Omaha, Neb., May 2.—A tornado is reported at Bayard, Iowa. All telegraph wires to Bayard are down.  
Two elevators, the Chicago, Milwaukee and St. Paul depot and a number of dwelling houses are known to have been destroyed. The agent of the Chicago, Milwaukee and St. Paul railway is missing and is supposed to have been killed.

A relief train left Perry for the scene. Hard rains are reported generally throughout the central portion of the state.

At Van Wert a funnel-shaped cloud dropped down on the town. The high wind blew down houses and barns and uprooted large trees. Several people were reported injured, but none killed. At Weidon a farmhouse was blown down and three children were injured. The tornado was seen from the town of Leroy, but that town was not in its path. All the towns mentioned are in Decatur County.

## BELOIT WON THE ORATORICAL PRIZE

Oscar Edward Maurer Was Awarded First Place in the Contest at St. Paul Last Night.

St. Paul, Minn., May 2.—Beloit college won the Interstate oratorical contest last night for the second time in three years, when Oscar Edward Maurer was awarded the first place in a contest with representatives of nine other colleges. Frank Brown of Knox college, Galesburg, Ill., was awarded second place and C. A. Culver of Carleton college, Minn., was ranked third.  
By winning the Interstate contest Beloit leads all the other institutions in the number of contests won. Her last winning orator was Rollo Luverne Damon.

## FILE CLAIMS FOR ILLEGAL TAX

Insurance Companies Demand Return of Money Collected by the State.

Springfield, Ill., May 2.—One hundred and forty-five foreign insurance companies, acting through their attorneys, filed claims aggregating \$270,078.55 with the commission of claims against the state of Illinois. It is represented that this amount was paid to the superintendent of insurance under the 2 per cent tax law recently declared unconstitutional by the Supreme Court. The claims are for taxes paid in 1899 and 1900 to Superintendent Van Cleave. A number of suits are pending in the courts here against Superintendent Yates for the 1901 taxes, which have not yet been turned into the state treasury. A date for the hearing of the claims will be set at the next meeting of the commission.

## TWENTY CARNEGIE LIBRARIES

Gifts of Over \$1,000,000 to Several of the Smaller Cities.

Pittsburg, Pa., May 2.—Just before departing for Scotland Andrew Carnegie announced to President W. N. Frew of the board of trustees of Carnegie institute that he had completed a new list of twenty libraries which he had given to various cities in the United States.

The latest list of gifts will amount to over \$1,000,000 and the libraries will be located in cities below the third class. There are no especially large gifts in the list and the institutions will range in price from \$20,000 to \$75,000.

## SHAFTER GETS MORE PAY

Wheeling, W. Va., May 2.—The Amalgamated Association re-elected Theodore Shafter president for the ensuing year. He received 145 votes to 58 for Thomas Williams of Janesville, Ohio. Secretary John Williams and Editor Ben I. Davis of the Amalgamated Journal were re-elected to their positions without opposition. One of the most interesting items of business transacted was the increase of 20 per cent in salaries given the president, secretary, editor and assistant secretary.

## MRS. DENISON WILL BE NEXT PRESIDENT

Los Angeles, May 2.—The second day's session of the general federation of women's clubs began with the reading of the reports of the officers after which an adjournment was taken in view of the floral parade. Mrs. Sarah Platt Becker of Denver has withdrawn from the race for the presidency, thus practically assuring the election of Mrs. Donles Dennison of New York.

## LA FOLLETTE AT BRODHEAD

Governor Talks of Hamlet in His Old Congressional District.  
Brodhead, Wis., May 2.—Governor LaFollette delivered a lecture on Hamlet last night at the Opera house. He was greeted by considerable applause. After the lecture was given a reception at which he drank lemonade with school girls, made friends with their mothers, and talked crops and other things with their fathers.

## LABOR TO FORCE A SHORTER DAY

Demand for Union Hours and Pay in All Parts of the Country.

## SOME MAKE TERMS

Total Number of Men Out is Not Nearly as Large as Predicted.

## THERE IS GOOD ORDER

Labor strikes were numerous throughout the United States yesterday but the total number of men who went out did not reach the figures predicted by union leaders. The two things contended for were shorter hours and higher pay. The total number of strikers reported at various points amounts to about 25,000 men in all and the most of these are likely to reach terms with their employers in a short time. The chief points of disturbance are in the East. Pittsburg leading with about 8,000 men out. The list is as follows:

May-Day Strike Roll.	
Pittsburg, Pa.	8,000
Buffalo, N. Y.	2,000
Yonkers, N. Y.	2,000
Hudson County, N. J.	1,500

Rockford, Ill.	30
Streator, Ill.	25
Total in United States	18,185
Toronto, Ont.	1,000
Total	19,185

## EMBRACES ALL INDUSTRIES

There appears to be no industry that is not affected in some degree by the annual manifestation of labor's grievances against capital. Fortunately, however, the reports which have been received show that in many cities and towns where large general strikes were expected employers succeeded in effecting a settlement in the last two or three days in April.

**All Records Broken**  
Information received from the New England states indicates that all previous records or May day strikes have been broken. Weavers and the members of the building trades constitute the majority of the workmen who are out in this section of the country.

In New Jersey the ranks of the striking weavers and members of the building trades were increased materially. Reports of disorder come from Passaic, and the situation in Paterson became much more serious. The darkest storm cloud in New York state appears to be hovering over Albany, where a general tieup of the street car line is threatened.

## AN EFFORT TO BAR MR. ED. MERRILL

Seems to Come from a Certain Few Who Fear the Big Fellow in the Coming Athletic Meets.

Milwaukee, Wis., May 2.—(Special)—The effort of some of the western colleges to have Ed. Merrill, the big athlete at Beloit college barred from further games on the charge that he is a professional, seems to come from a certain few who fear the big fellow at the meets to be held this spring and summer. There is no organization in this country more severe against athletes regarding professionalism than the Amateur Athletic union, and as Merrill was given a fair trial before that body last fall and exonerated it is peculiar that his case should be brought up again—only by the Big Nine Conference. President W. U. Lighner of the Central association, A. A. U., says regarding the case: "It seems to me that there are a couple of colleges determined to keep Merrill out of the big games. Why they are implicated in doing so seems strange to me in view of the fact that they profess to be for pure athletics only. I do not believe, however, that Prof. Stagg is in any way implicated in the move. There are certain parties who know that Merrill is a certain winner in a number of events and for that reason they want to keep him out of the way. Merrill was given a fair trial last fall and exonerated. I consider him just as pure an amateur as many who are on college teams today, and probably a little more so."

**Thinks Governor is to Blame.**  
The Oshkosh Northwestern observes that "on him (Governor LaFollette) depends to a large extent the unification of the party once more in a harmonious and satisfactory manner." Quite true, since the governor is solely responsible, primarily at least for the schism which exists in the party. We shall, however, be both surprised and gratified if he makes any effort towards closing up the breach which he has caused, because it is extremely doubtful if he has a single element of the disposition needful to that undertaking. Otherwise, he would have been thereby restrained in the first place from precipitating the trouble which exists among republicans by his autocratic and domineering methods—intolerable as they have been to the great bulk of self-respecting members of the party.—Appleton Post.

**CHILDREN LIKE IT.**  
"My little boy took the croup on 'night," says J. D. Reynolds of Wausau, O., and grew so bad you could hear him breathe all over the house. I thought he would die but a few doses of One Minute Cough Cure relieved and sent him to sleep. That's the last I heard of the croup." One Minute Cough Cure is absolutely reliable and acts at once. For coughs, colds, croup, grip, asthma and bronchitis.

## ODD FELLOWS WILL MEET AT LA CROSSE

Date Has Been Fixed by the Executive on June 2, 3 and 4—Official Program of Gathering.

The grand lodge executive committee of Odd Fellows has finally completed arrangements for the meeting of the Grand lodge and the reunion of the order to be held at LaCrosse, June 2, 3 and 4. Letters have been received from all the subordinate lodges in the state to the effect that large delegations will be present and the local committee is making arrangements accordingly.

It is expected there will be 700 delegates in attendance at the grand lodge and 300 at the convention of the Rebekahs to be held at the same time, besides those who do not come in an official capacity and the uniformed rank.

Tact and parade of the uniformed rank is intended to be made a more prominent feature than usual. There will be plenty of music and many uniformed lodges in attendance from all parts of the state. The Sparta and Viroqua delegations have announced that they will come in a body.

The following official program of the grand lodge meeting has been issued.

Tuesday, June 3—9 o'clock—Delegates and visiting Odd Fellows, together with the uniformed rank, which will act as an escort to the grand lodge, will assemble at Odd Fellows' Temple on Fourth street, form in procession, march to the Hotel La Crosse and escort the grand officers and the reception committee to Germania, where the sessions of the grand lodge will be held.

10 o'clock—Exercises will be held in the hall; prayer, Chaplain Parker, Milwaukee; music; address of welcome, Mayor Joseph Boschert; response, Grand Master A. F. Brandt; Address, "Odd Fellowship," Past Grand Master L. H. Lead, Shell Lake; music; 11 o'clock, meeting of Grand lodge; 8 p. m., reception to Grand lodge; Rebekah assembly and visitors by Myron P. Linusley Lodge, Daughters of Rebekah.

Wednesday, June 4—Morning, Grand lodge meeting; 8 p. m., concert in Germania hall by Landstad's orchestra, followed by ball.

Thursday, June 5—Morning, Grand lodge meeting; 3 p. m., excursion on the Mississippi; 8 p. m., promenade concert at Court House park; 10 p. m., "Home Sweet Home."

It fills the arteries with rich, red blood, makes new flesh, makes sick people well. That's what Rocky Mountain Tea will do. 35c. Smith's Pharmacy.

**Talking Business.**  
A good advertisement is a good salesman. It takes the subject in hand and presents it to a large audience, explaining the merits of a given territory. If the advertisement is well prepared, it will be logical, consecutive, complete and will not only attract the attention of the prospective customer, but hold the attention through the entire reading of the advertisement and in the end convince the reader of the merit of the article offered. If the sale is lost for today, no doubt the results will be good for some future purchases. The best way to make advertisements talk business is to put business ideas into what is said and the manner of saying it.—Advertising World.

## GRAZING BILL GETS SETBACK

President Opposed to Withholding Land from Actual Settlers

MILLIONS OF ACRES ARE OPEN

Measure Would Enable Cattle Owners to Monopolize the Ranges for a Long Period, Thus Preventing the Homesteaders from Making Entries.

Washington, May 2.—President Roosevelt is opposed to what is known as the "cattlemen's bill," which proposes to lease the public domain for grazing purposes at a yearly rental of 2 cents an acre for ten-year periods, and will veto it should it be passed by congress. This interpretation has been placed upon a letter received by the senate committee on public lands from the Secretary of the Interior Hitchcock. The secretary and Commissioner Herman of the general land office had a long interview with the president. After returning to his department the secretary's letter, severely criticizing the provisions of the measure, was sent to congress. The secretary insists that it should be the policy of the government to dispose of the public domain to actual settlers as promptly as possible, and says the bill would prevent this for twenty years at least. There are about 525,000,000 acres of public land open to settlement, of which probably more than three-fourths is available for grazing and would be monopolized by cattlemen should the bill become a law. The letter will undoubtedly kill the bill unless it should develop that it does not reflect the president's views.

### TO HEAR PRO-BOER.

House Committee on Foreign Affairs to Act on Sympathy Resolutions.

Washington, May 2.—Representative Burleson of Texas brought the Boer question before the house committee on foreign affairs, when he asked what disposition had been made of the various resolutions of sympathy referred to the committee. Representative Adams of Pennsylvania, chairman of a subcommittee having the resolutions in charge, said that next Monday had been designated for a hearing, when several of those prominently identified with the pro-Boer movement will be present.

The resolutions include those of sympathy and also referring to supply camps alleged to be maintained in this country. The subcommittee consists of Representatives Adams, Cousins and Hooker.

Representative Burk (Pa.) introduced resolutions for giving a national welcome to ex-President Kruger, and requesting the president to proclaim that our ports are not to be used by either of the South African belligerents for the shipment of horses or mules.

### Fessenden's Wireless System.

Washington, May 2.—Prof. R. A. Fessenden, who has charge of the wireless telegraphy experiments of the weather bureau along the Virginia and North Carolina coast, conferred with Secretary of Agriculture Wilson and Prof. Willis L. Moore, chief of the weather bureau. It has been rumored that Professor Fessenden would resign from the weather bureau in order to put the results of his work to commercial use, but this question is still unsettled. If the weather bureau continues to back Professor Fessenden it is proposed to have the results inure to the interests of the government service generally and not to the bureau alone. Professor Fessenden announced that his system is now practically complete and that the work for the next few months will be the perfection of details. He claims that he has succeeded in sending messages overland, but Professor Moore contends that overland communication so far has been by signals and not by messages.

### Nicaragua Canal Proposed.

Washington, May 2.—Mr. Corea, the Nicaraguan minister, called at the state department and informed Secretary Hay that the reply of his government to the secretary's proposal regarding the Nicaragua canal had been received, and that he is now empowered to make definite presentation of the terms under which his government will grant the rights necessary to the construction of a Nicaragua canal. However, as Mr. Corea and Mr. Calvo, the Costa Rican minister, are working jointly in this matter, and as Mr. Calvo has not yet received final word from his government, the presentation of the canal agreements will be deferred until both of the ministers are fully equipped. It is understood that there is no serious hitch concerning the Costa Rican proposition, considerations of a purely formal character being the cause of the delay.

### Thomas Nast a Consul General.

Washington, May 2.—Thomas Nast, the famous cartoonist, was named by the president to be consul general of the United States at Guayaquil, Ecuador. Mr. Nast signified his acceptance at the state department by drawing a strikingly funny picture of himself, gripsack under his arm, making a wild dash for his post in South America. Mr. Nast is the successor of Perry de Leon of Georgia, who has been under investigation as a result of his conduct in connection with his efforts to effect the release

of some Americans who became involved in trouble with the local authorities of Guayaquil. It was charged that Mr. de Leon had overstepped the limits of his authority.

### Presidential Nominations.

Washington, May 2.—The President sent the following nominations of postmasters to the senate: Illinois—Chester R. Claybaugh, Toulon; Roger Walwalk, Ava. Indiana—Miles K. Moffett, Connersville; John C. Fudge, Dunkirk; Daniel Lynch, Lowell. Iowa—George A. Watts, Clear Lake; Lincoln Hall, Burt. Michigan—John D. Smead, Blissfield; Henry C. Minnie, Eaton Rapids. Ohio—Clifton G. Duncomb, Ashland; Atwell E. Ferguson, Gibsonburg; Manning M. Rose, Marietta. Wisconsin—Thomas S. Chittenden, Ripon.

### Exercises at Mount Vernon.

Washington, May 2.—The sessions of the annual congress of the Sons of the American Revolution consisted of a business meeting during the forenoon and patriotic exercises at Mount Vernon, the old home of George Washington, in the afternoon. A constitutional amendment was adopted providing that officers of the society shall serve one year "and until their successors are elected." Reports submitted showed that Massachusetts leads in the number of members, with 1,424, New York next with 1,235, Connecticut 997 and Illinois 488.

### Cuban Consular Service.

Washington, May 2.—The house committee on foreign affairs offered a favorable report on the bill of Representative Hitt of Illinois establishing a United States diplomatic and consular service in Cuba, with a United States minister at \$10,000; secretary of legation, \$2,000; second secretary, \$1,500; consul general at Havana, \$5,000; consuls at Cienfuegos and Santiago, \$3,000 each. The bill differs from the plan proposed in the senate which allows the minister a salary of \$12,000 and adds a consulate at Matanzas.

### Reception to Mrs. Cambon.

Washington, May 2.—A brilliant assemblage of Washington's most noted people gathered in the French embassy to welcome Mme. Cambon, the attractive wife of the French ambassador. Mrs. Roosevelt was invited to the embassy but following the unwritten rule she decided not to accept, as she has hitherto declined similar courtesies at other embassies. The White House was, however, represented by Miss Alice Roosevelt, who remained in the drawing-room throughout the afternoon.

### Dull Day in the Senate.

Washington, May 2.—Discussion of the Philippine question again, occupied most of the day in the senate. Both the Rosebud reservation bill and the sundry civil appropriation bill received consideration, but not final action. A bill appropriating \$5,000 for a lighthouse-keeper's dwelling at Ecorse Range light station, Detroit River, Mich., was passed. The usual executive session preceded adjournment.

### Provide for the District.

Washington, May 2.—Most of the day in the house was given to the District of Columbia appropriation bill, which was not completed. Mr. Shattuck (Ohio) spoke on industrial conditions, and Mr. Gaines (Tenn.) in criticism of conditions in the Philippines. A bill was passed providing that third and fourth class mail matter without sufficient postage shall not be remailed to the sender.

### Moody Sworn In.

Washington, May 2.—William Henry Moody, the new secretary of the navy, took the oath of office at the navy department. The oath was administered by E. P. Hanna, solicitor of the department. The entire personnel of the department was presented to Mr. Moody, the clerks at the same time bidding Mr. Long farewell.

### Money Assault Case Goes Over.

Washington, May 2.—An unexpected move to nolle pro the three cases of alleged assault growing out of the altercation on a street car last week in which Senator Money of Mississippi figured, resulted in postponing the cases in the police court until Tuesday.

### Public Debt Statement.

Washington, May 2.—The monthly statement of the public debt shows that at the close of business April 30, 1902, the debt, less cash in the treasury, amounted to \$933,115,976, which is a decrease as compared with April 1, 1902, of \$4,616,356.

### Depew Invites the Stork.

Washington, May 2.—Interest is felt in the rumor that enforced retirement will soon remove the charming wife of senator Depew from the capital.

### ANDREWS CASE IS POSTPONED

Court Grants Defense Time to Examine the Bank's Books.

Detroit, Mich., May 2.—The examination of Frank C. and Henry R. Andrews, former officers of the defunct City Savings bank, which has been in progress before Justice Whelan, was adjourned until May 19.

The delay was granted to give the defense time for an exhaustive examination of the bank's books and also because two of the attorneys in the case were compelled to leave the city.

Paying Teller Joseph H. Schrage of the wrecked bank was on the stand and was examined as to the way the F. C. Andrews overcertified checks were handled at the bank.

The county auditors requested Prosecuting Attorney Hunt to begin bankruptcy proceedings against Frank C. Andrews immediately.

## IF YOU ARE NOT FEELING WELL THIS SPRING

## What We Say Is Exactly What We Mean.

There is no honor or profit in fooling the people, especially when they are your own neighbors and customers. Therefore our guarantee offer on Vinol is made in perfect good faith. Call at our store and get a bottle of Vinol at once, and if it does not help you after a reasonable trial we will return every cent you paid us for it.

We repeat the statement that every sick person should be willing to try Vinol on such favorable terms.

We can refer you to plenty of people right here in our own city who have been restored to health by Vinol, and people whose standing in the community is unquestionable.

You therefore must admit that we know what we are talking about when we say that Vinol will surely restore to health all persons who are all run down, feel worn and miserable, without appetite or ambition, caused perhaps by sickness during the winter. People who have been ill with the grippe or a severe fever recover strength and robustness very quickly under the VINOL treatment, and it is simply astonishing how much Vinol does for pale women and children,—weak and nursing mothers,—and especially does it promote the vitality of old people; it is a gentle stimulant without reaction.

Vinol you know is not a patent medicine; it is just the curative elements of cod liver oil combined with a little organic iron and a fine table wine, so that without any disagreeable features it is the grandest tonic reconstructor we know of. Delicious, appetizing and delicate of taste.

Call at our store and let us tell you more about Vinol. We never had anything sell like it and give such general satisfaction. It must therefore be good.

Don't wait until tomorrow, call today.

## HOME SEEKERS

In the sixty days ending April 12, the railroads carried 136,000 home seekers into the northwestern states, half of the number went by the way of St. Paul and North Dakota adds to her population 50,000 people. That means close to 1,000 a day for 60 days. It is estimated that 25,000 cars of freight, belonging to these home seekers, were handled in the same length of time. This means business for the railroads.

The Dakotas are filling up rapidly, and the price of land is advancing in proportion. Wild land, that was held by the C. & N. W. railroad in the vicinity of Watertown at 2.50 per acre 15 years ago, now finds a ready market at from \$25 to \$30. The country is being settled up by practical farmers, many of them young men. Crops have been good for the past few years and the tide of immigration equals the days of early settlement, except that it is more reliable. There is no more government land to tempt people who imagine that a quarter section of raw prairie 160 miles from nowhere, represents a fortune. The men who go west today, have money and the land is being rapidly redeemed. With cultivation comes rain and plenty of moisture and the crop is sure as the older states.

Washington, Idaho and Oregon, are also attractive, and 15,000 people have located in these states since the first of March. This heavy immigration of farmers is very significant and means much in the way of permanent prosperity. It means an army of producers. They occupy land that has never contributed a dollar for any purpose and in five years the barren prairie will be transferred into a wealth producing garden. The same number of men in factories, are dependent on trade conditions and more or less idleness follows. It is one of the most hopeful signs of the times, when labor turns its attention to subduing uncultivated territory. The United States is rich in land, and every acre of it that is improved, means new dollars and permanent prosperity.

The average boy on the farm, when he reaches the restless age, where the old homestead is cramped and he feels that he must strike out for himself, might far better join the ranks of home seekers, and continue the business with which he is familiar, in a new state, than join the army of young men in the towns and cities, where sharp competition and an overcrowded market, renders it almost impossible to advance beyond a meager salary. The West is crowded with opportunities for practical farmers. While every acre of land in states like Wisconsin is producing to its limit, the great West is still in its infancy, and success is just as sure to follow intelligent effort in this new field, as time is to transpire. The man who tills uncultivated soil, is not only a blessing to himself, but he contributes to the prosperity of the nation and the welfare of humanity.

## CONGRESSMAN COOPER

It is conceded throughout the First Congressional district, that if Mr. Cooper brings to the convention, to be held in Janesville May 27, a solid delegation from his own county, that he will be renominated without opposition. The air has been full of rumors for the past few days, that Mr. Cooper could not control his own county and as a result, speculation has been rife as to what the convention would do, if obliged to take up a new man. The factional fight on state matters, has contributed to the unrest and has encouraged the speculation.

The Gazette has it from the best authority that Racine county will be loyal to her representative in Congress as she has been. In the past the county would certainly be very foolish to turn down her own congressman. It would be practically an unknown experience. There are of course a few disgruntled politicians in the lake shore district, who have axes to grind and they are ready to sacrifice Mr. Cooper or any other interests, to gratify personal spite and ambition. But this class of men are largely in the minority and their following is insignificant. Mr. Cooper has pursued the same policy adopted by the entire congressional delegation, and while he with others has been criticised for not talking a hand in state issues, yet he is no more subject to criticism than Mr. Babcock or the rest of his colleagues.

The Gazette can readily understand the position these men occupy and from their standpoint they doubtless feel justified in the attitude assumed. They are the representatives of all the people, nominated and elected, not by any faction of the republican party, but by the party as a unit. If they remain in congress and are efficient, they must continue to represent the party as a whole. There is of course no national issue involved in the state campaign except in so far as the reelection of Senator Spooner is concerned and there can be no doubt of his reelection.

While Rock County expects some

day to have a congressman, the county has no aspirations in that direction this year. Mr. Cooper will have the unanimous support of the county in the convention, and unless all signs fail, he will be nominated by acclamation.

## LABOR TROUBLES

W. H. Hamilton, a labor agitator, is under arrest at Eau Claire, for writing incendiary letters and advocating deeds of violence, among the striking paper men in the Fox River valley. A 12 page letter, unfinished, was found in his pocket, of which the following extract is a sample:

"I am going to stop advocating peaceful methods of fighting our battles. I am beginning to believe that if we would make an object lesson of some of these men by putting them by for repairs we would have less trouble with them and they would not stay so long when they come. After they are here a few days and they see that no one will molest them they get too easy and I am beginning to think that workmen have a 'moral' right to protect their interests against them and cut throats, even though it may cost a few of us our 'liberty' to starve or submit. I am beginning to think that union men have too much respect for the strong arm of the law that is everlastingly uplifted against them and in protection of thugs and cutthroats who are simply hired for the time being to take the bread out of the mouths of union men's families."

The men that he wanted to "lay by for repairs" were non-union men, who were trying to support their families and earn an honest living. Hamilton and the limited class of agitators he represents, are dangerous and are so regarded by labor unions as well as by the community at large. The cause of labor suffers more through this class of agitators than from any other cause. Mr. Hamilton should be kept behind the bars for an indefinite period.

## EVIDENCES OF PROSPERITY

Practically one half of the importations of the United States are now manufacturers' materials. Of the importations of arch, whose details have just been announced by the Treasury Bureau of Statistics, 49.13 per cent. consisted of manufacturers' materials, and amounted to \$41,381,755 out of a total importation of \$84,250,559 during the month. For the nine months of the fiscal year ending with March, manufacturers' materials formed about 46 per cent. of the grand total, being \$310,792,429 out of a total of \$678,698,016.

Important manufacturers' materials will in the fiscal year which ends next month by far exceed those of any preceding year in the history of our industries; the highest figure ever reached in any preceding year was that of the fiscal year 1900, when the grand total was, in round terms, 390 millions. In the present year it seems likely to attain the enormous sum of 425 millions. In 1890 manufacturers' materials formed but 34 per cent., or practically one third of the importations; in 1895 they formed 37 per cent., and in March of this year, as already indicated, they formed 49.13 per cent., or practically one half of the grand total of importations. Bureau of Statistics, Treasury Department.

An appeal to American Catholics, is made this week, through the "Catholic Citizen," to regulate what is regarded as Protestant abuses in the Philippines. It is claimed that the school system in conducted entirely in the interests of Protestantism, and that Catholic teachers are not recognized. It is to be regretted that a religious war is precipitated. If the benighted land is to be redeemed, bigotry of every nature, should disappear.

The Dallas Morning News, has recently issued a 72 page souvenir edition, which for a work of art, as well as for a fund of information is a model of excellence. The occasion was the re-union of the Sons of Veterans of the Southern Confederacy. The paper contains an exhaustive history of those stirring times, and is attractively featured. Texas is the largest state in the Union, Dallas the metropolis of the state and the News appears to lead the procession.

Congressman Dahle is trying to find out where he is at. It is difficult for him to realize that he has been used for a foot ball and yet it has that appearance to a large extent. He will enter the race for re-election, backed by an indignant constituency, and his chances for success are favorable.

The discovery is being made, all over the country that meat is a luxury, and that it is possible to enjoy good health, without loss of physical strength, on a limited quantity of beef. Many retail shops have been obliged to close for lack of patronage. If the habit becomes a fad the price of meats will fall of their own weight.

General McArthur has pronounced opinions regarding conditions in the Philippines, and he does not hesitate to express them. The General has been on the ground and knows whereof he speaks.

A little stretch of imagination causes Miss Stone to believe that she was released by prayer. The general supposition is that a liberal donation had something to do with it.

## PRESS COMMENT.

**Milwaukee Journal:** When Mr. Milnor gets home, he will find tracks of game varmuns deeply indented all over the congressional district.

**Racine Journal:** LaFollette men are not alone in the opinion it seems, the interests of the governor and Senator Spooner cannot be driven tandem.

**Merrill Advocate:** The governor evidently feels that H. B. Dahle is his political chattel and he has a perfect right to relegate him to private life at any time.

**Marquette Eagle:** A LaFollette organ had to suspend in Rock County. The Marquette LaFollette organ has a barrel behind it, or it would have suspended long ago.

**Tomah Monitor:** The only thing Monroe County's game warden seems to be doing is playing advance agent in securing dates and halls for Senator McGilvray's meetings to organize LaFollette clubs.

**Racine Journal:** It is likely that the assaults of the governor's supporters upon the literary bureau of their opponents is only a case of jealousy at its so far exceeding their own despite its greater age.

**Oshkosh Northwestern:** The Glenwood Tribune wants to know how women can "keep up socks." Because they've got legs and no pipe stems like the tribune goes on.—Milwaukee Journal.

According to the reports of some of the local fishermen it is a comparatively easy matter for an enterprising man to get up early in the morning and by a few novel attention to the piscatorial art beat the meat trust out of a dollar or two.

**Eau Claire Leader:** The people of Wisconsin feel perfectly at ease regarding their representatives in the United States senate. They know that their interests and interests of the nation are being carefully attended to by Messrs. Spooner and Quaker. All they want now is the right kind of a man? Chief executive of the state, and that man is Senator Whitehead.

**Evening Wisconsin:** The Daily Wisconsin, which was started at Janesville to support the nomination of Governor LaFollette has suspended, after a brief career of thirty-seven days. The editor says that \$1,000 has been sunk in that period and he has no more money to waste on the enterprise.

## FIERCE FIRE AT HANSON FACTORY

Oil House, Containing a Barrel of Turpentine, Set on Fire by a Spark from a Passing Train.

Shortly before one o'clock this afternoon an alarm of fire from box 261 called the department to the Hanson Furniture factory. The oil house containing a barrel of turpentine, one of machine oil and part of a barrel of benzine, had caught fire, probably from a spark from some passing train and was burning fiercely. Fortunately the house was located some distance away from the buildings and lumber piles or there would have been a serious fire as the oil blazed up fiercely and the wind was blowing the flames toward the piles of lumber. A lead of hose was laid from the hydrant on Hickory street and soon had all the fire extinguished with the exception of what was caused by the burning oil. The building was a small frame affair and probably cost \$75. It was a total loss. The entire loss will probably amount to \$200. The huge clouds of black smoke that rolled up from the fire led people to believe that the entire factory was going and a large crowd from all over town soon collected to see the blaze.

## MAKE BRICK FROM SAND AND LIME

City Clerk Has a Letter of Inquiry from Saginaw, Michigan—May Mean Another Plant.

City Clerk A. E. Badger received the following letter from the Michigan Sand Lime Brick Co., of Saginaw, Mich., manufacturers of sand and lime pressed brick. The company uses the Hueneke system, which seems to be similar to the process of the American Cement Post Co. The letter will be submitted to the Business Men's association and is as follows:

City Clerk, Janesville, Wis.  
Dear Sir—Intending to become interested in the manufacture of brick from sand and lime, I wish to ascertain if there is sand in any considerable quantities at or near your city. We require a good sharp sand, such as suitable for mixing mortar. At Saginaw we are obliged to obtain a supply from the river bottom, where there is any quantity of excellent quality. A factory with a daily capacity of 20,000 brick (running days only) will require 9,000 cubic yards of sand per annum, if operated daily 300 days, so we shall require a very large supply. If there is no sand near by can you tell me the distance it is necessary to ship it, and if possible, the cost of transportation per yd. An early reply will be greatly appreciated. Thanking you in advance, I am, Truly yours,  
FRED G. COWLES,

## JEFFRIS FACTORY IS A BUSY PLACE

Last of the Interior Work of the Residence of C. L. Culton, Shipped to Edgerton Today.

Superintendent Fred Rowell, of the Jeffris Co., is a very busy man just at present and has a large force of men under his watchful eye. Mr. Rowell finished up and shipped today the last of the interior work for the palatial residence of C. L. Culton, of Edgerton. One of the pieces is a beautiful mantle of quarter-sawn red oak. It is about seven feet wide and ten feet high and is highly ornamented with hand carving in elaborate design.

Supt. Rowell has the contract for furnishing the interior work for a handsome residence for Charles Birkenmeyer, a wealthy merchant of Edgerton.

Among the many large contracts the company have to fill is one for a large crockery store in Milwaukee to be opened by Frank Wheelock, formerly of this city.

The contracts for the interior work for the fine residences of John G. Rexford and W. F. Palmer will probably be signed in a few days. Orders are coming in rapidly for screen doors and windows and a large force will soon be at work in that department.

## Returned From California

Mr. and Mrs. W. B. Campbell have just returned from a year's visit in California. They seem to have renewed their youth and are very enthusiastic in their descriptions of that land of flowers, fruit, climate and scenery. They lived in a tent three months last summer at Long Beach, and made extended sojourns in Los Angeles, Pomona, Pasadena and Redlands, where they bought a residence and on their way home made calls at San Francisco, Portland and Minneapolis.

## MAY BENEFIT THE PUBLIC LIBRARY

A Residue of \$2,200 from the Sale of All Souls Church, May Be Turned Over.

There has been considerable quiet talk of late among the members of All Souls' church in regard to the disposition of the money left from the sale of the property after the debts were paid. This money amounts to about \$2,200 and it has been suggested by several members of the congregation that the sum should be turned over to the public library board and be used to complete the upper portion of the building. It has also been suggested that the money be used to fit up some particular part of the building and that part to be known after the church.

The plan as yet is barely formulated but may lead to considerable benefit to the library building. As it would be a hard thing to try and divide the money up among the surviving members of the congregation it would be a good plan to put the money in some public building where it would benefit all alike.

## LARGE PORCUPINE WAS CAPTURED

George Kastner, Who Lives at 195 Center Avenue, Finds a Peculiar Animal in His Yard.

George Kastner, who lives at 195 Center avenue, captured a large porcupine in his yard yesterday and is wondering where the animal came from. He found it near the barn and in catching it the porcupine discharged a great number of quills. He finally slipped a rope around the neck of the animal and tied him to a tree, and in some manner he became entangled in the rope and hung himself. A number of people have called at Mr. Kastner's house to see the porcupine as it is seldom if ever, in recent years, that one of these animals have been found in this vicinity.

Ringling Bros.' circus passed through the city about a week ago, and possibly the porcupine escaped from one of the cars.

## PARK DECORATION

The committee appointed by the Twilight club to secure funds for the embellishment of our parks are making encouraging progress. The enterprise is one in which all of our citizens are directly interested. All will have proprietorship and participation in the increased beauty.

It is therefore requested that any who desire to promote this enterprise and who are not personally solicited by the committee leave with Mr. Sayles, of Hall, Sayles & Fifield, their contributions. Any amount will be received from one cent upward. The larger the number of contributions the more emphatic the popular demand will appear for parks beautiful as modern art can make them.

The fear is expressed in some quarters that vandalism will defeat these artistic aims. In that event we must confess a lower state of public morals than obtains in other cities. We are confident, however, that an aroused public indignation and severe legal measures would repress any vandalism. Probably for the present the decorative efforts will be centered on Court House park.

## ILLEGAL FISHERMEN BROUGHT TO TIME

How Game Warden Drafahl Managed the Arrest of Tom Brown, for Using a Seine.

Game warden Drafahl, had an exciting time Tuesday night when he caught "Tone" Brown, and arrested him for hauling a seine in Lake Koshkonong. Drafahl had received a tip that some parties about the lake were in the habit of using a seine, and Tuesday night, in company with deputies Grazz and Volbrecht, made a trip to the lake, arriving there late at night.

They spent some time looking around and finally about 1 o'clock in the morning, located two men busily engaged in hauling a seine. They sneaked down to where the men were a work and were within a few feet of them before they were discovered. Brown jumped into his boat and started out into the lake, but was stopped by a shot from Drafahl's revolver, and the other from the deputies for him to come ashore or they would shoot.

This brought Brown to time and he came ashore and gave himself up. His partner, who the deputies appeared, jumped into the lake and by wading and swimming, made his escape.

The deputies secured two boats that belonged to Brown and two hundred feet of seine. The boats were destroyed and the seine was shipped to Peter Drafahl, Janesville, where it will be taken care of or used to seine carp out of the river.

Brown was taken to Madison and fined \$50 and costs, in all \$53.50. The officers have been after Brown any number of times, but this is the first time they have succeeded in getting him.

Judge Dunwiddle today ordered a judgment of divorce in the case of Sadie M. Haynes vs. Lewis R. Haynes, on the ground of desertion. John J. Cunningham appeared for the plaintiff, there being no appearance on the part of the defense.

## WHITEHEAD TALKS CAMPAIGN ISSUES

Continued From Page 1.

the Stevens bill be passed substantially in its present form. He should have known better the place in which he spoke and the men to whom he spoke. From the foundation of the state, the practice of Wisconsin legislators had been different from that which his words and manner implied. He and those for whom he spoke found that constitutional obligations rested as well upon the members of the last as upon those of any former legislature. The bill itself, no less than the arguments used for it gradually aroused the legislature.

Legislators Accepted Challenge. "An editorial writer, favorable to the enactment of the bill said if it in a leading journal: 'Nothing more radical could be proposed within the limits prescribed by the party system as will be seen by a glance at the features of the bill.' The body was not so easily led, as had been expected, to lay aside its sense of official responsibility; and when the gentleman who spoke first for the bill considerably opened the door to an investigation of it on the part of the legislature in the following language: 'If this proposed law has enemies in this legislature or out of it who believe that it is not based on sound principle, let them stand out in the open and fight it squarely. They have a right to their opinions. If they are loyal to their convictions, they will consent to no compromise; the members of the legislature were not slow to enter. They began more earnestly to study the scope of the bill.' They acquainted themselves with its terms; they learned its meaning; they foresaw its effect; they accepted the challenge to be known as the enemies in the legislature of the bill; they stood out in the open and fought it measure squarely; and, finally, as oath-bound representatives of the people, they decided that the 'demand of the people' was not for a bill 'more radical' than any bill ever proposed within the limits prescribed by the party system. I shall have occasion to go more into detail with reference to the bill and its substitutes and to the attitude of the legislature in a later communication."

## PEORIA BISHOP'S SILVER JUBILEE

Five Hundred Prelates Parade  
in Honor of the Signal  
Event.

RECEIVES HANDSOME GIFTS

Peoria, Ill., May 2.—Bishop John Lancaster Spalding's silver jubilee celebration was the most gorgeous religious ceremonial ever beheld in the state of Illinois. It was participated in by more than 500 priests and high dignitaries of the Roman Catholic church. The decorations of the magnificent cathedral of St. Mary's were on a gorgeous scale, and were completed at a cost of nearly \$3,000.

The ceremonies were commenced with a parade of the visiting clergy from the Spalding institute to the cathedral, which was witnessed by a vast concourse of people. In the procession marched dignitaries of the Catholic church of world-wide renown. Among those participating were the following:

Cardinal Gibbons of Baltimore, Archbishop John Ireland of St. Paul, Archbishop Keane of Dubuque, Archbishop Kain of St. Louis, Archbishop Riordan of San Francisco, Bishops Gabriels of Ogdensburg, N. Y.; McQuaid of Rochester, N. Y.; Byrne of Nashville, Tenn.; Foley of Detroit, Mich.; Messmer of Green Bay, Wis.; Shanley of Fargo, N. D.; Cotter of Winona, Minn.; Scannell of Omaha, Neb.; Burke of St. Joseph, Mo.; Duane of Dallas, Texas; Cosgrove of Davenport, Iowa; Glennon of Kansas City, Mo.; Muldoon of Chicago; Ryan of Alton, Ill.; Janssen of Belleville, Ill.; Mueller of Columbus, and County of Washington, D. C.

At the close of the parade pontifical high mass was celebrated by Bishop Spalding, following which the jubilee sermon was preached by Cardinal Gibbons.

A magnificent banquet was given the visiting priests at the episcopal residence. During the banquet Bishop Spalding was presented with a purse of \$7,000 in gold, the gift of the clergy of the parish. Spalding council, Knights of Columbus, of Peoria, presented him with a check for \$1,000 for the establishment of a free scholarship in the Spalding institute, to be controlled by the bishop. The services concluded with a sermon by Archbishop Ireland.

At the banquet in the episcopal residence, which was a most brilliant affair, toasts were responded to by the following priests:

Cardinal Gibbons, "Our Holy Father, Leo XIII."

Archbishop Keane of Dubuque, "Our Church."

Archbishop Riordan of San Francisco, "Our Country."

Dean Keating of Ottawa, "The Clergy of the Diocese of Peoria."

Dean Mackin of Rock Island, "The Greetings of the Clergy of the Peoria Diocese."

The decorations of the cathedral, noticeable for their beauty and costliness, were the gift of Mrs. John Cudahy of Chicago.

## Plenty of Coal...

Some dealers have been unable to get the coal they need. We always have enough to supply the demand.

Just now we have a little more than usual, and would like to sell one or a dozen tons. Our coal is carefully handled, saving fuel and keeping your place clean.

We make prompt deliveries to all portions of the city. Just 'phone us.
